Global Equities Fund

Fund update for the quarter ended 30 September 2024

This fund update was first made publicly available on 29 October 2024

What is the purpose of this update?

This document tells you how the MAS Investment Funds Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Global Equities Fund usually invests only in growth assets. The Fund aims to provide higher returns over the long term. It is suitable for investors who are prepared to accept a higher level of investment risk to potentially achieve a higher return.

Total value of the fund	\$2,068,668
The date the fund started	31 January 2024

What are the risks of investing?¹

Risk indicator for the Global Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not Applicable
Annual return (after deductions for charges but before tax)	Not Applicable
Market index annual return (reflects no deduction for charges and tax)	21.70%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz

What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. As at 2 August 2024 these were:²

	% of net asset value
Total fund charges ³ (estimated % of net asset value)	0.99%
Which are made up of:	
Total management and administration charges	0.99%
Including:	
Manager's basic fee	0.89%
Other management and administration charges ⁴ (estimated % of net asset value)	0.10%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor⁵

Sam had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return, after fund charges were deducted, of \$1,081 (that is 10.81% of his initial \$10,000). Sam also paid \$0 in other charges. This gives Sam a total return after tax of \$1,081 for the year.

Notes

1- Because the fund has been operating for fewer than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2019 to 31 March 2024 and actual returns for the period 1 April – 30 September 2024. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2- The fund has not yet completed a full disclosure year and the total fund charges shown are the amount of costs and expenses that will be charged to the fund date of the MAS Investment Funds PDS on issue as at 30 September 2024. The fund's first full disclosure year is the year ending 31 March 2025.

3- Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). The annual fund charges include GST as applicable.

4- The other management and administration charges may vary from year to year. These charges are based on estimates provided by the Scheme's professional service providers. Fees and expenses charged by underlying funds have been estimated based on their public disclosures.

5- As the fund does not have a full year of performance data, the returns used are based on the period 12 February 2024 to 30 September 2024. For the purposes of the member example the period refers to 12 February 2024 to 30 September 2024 and the return is the actual returns since the fund started, net of annual fund charges and tax.

Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Moderate Fund invests mainly in income assets with a moderate allocation to growth assets. The Fund aims to provide moderate returns over the short to medium term. It is suitable for investors who are prepared to accept some investment risk to potentially achieve a moderate return.

Total value of the fund	\$827,099
The date the fund started	31 January 2024

What are the risks of investing?¹

Risk indicator for the Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	Not Applicable
Annual return (after deductions for charges but before tax)	Not Applicable
Market index annual return (reflects no deduction for charges and tax)	14.61%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. As at 2 August 2024 these were:²

	% of net asset value
Total fund charges³ (estimated % of net asset value)	0.95%
Which are made up of:	
Total management and administration charges	0.95%
Including:	
Manager's basic fee	0.78%
Other management and administration charges ⁴ (estimated % of net asset value)	0.17%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor⁵

Sam had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return, after fund charges were deducted, of \$657 (that is 6.57% of his initial \$10,000). Sam also paid \$0 in other charges. This gives Sam a total return after tax of \$657 for the year.

Notes

1- Because the fund has been operating for fewer than 5 years, the risk indicator has been calculated using market index returns for the period 1 October 2019 to 31 March 2024 and actual returns for the period 1 April – 30 September 2024. As a result, the risk indicator may provide a less reliable indication of the potential future volatility of the fund.

2- The fund has not yet completed a full disclosure year and the total fund charges shown are the amount of costs and expenses that will be charged to the fund date of the MAS Investment Funds PDS on issue as at 30 September 2024. The fund's first full disclosure year is the year ending 31 March 2025.

3- Total fund charges are charged as a percentage of an investor's interest in the fund (i.e. as a percentage of their account balance). The annual fund charges include GST as applicable.

4- The other management and administration charges may vary from year to year. These charges are based on estimates provided by the Scheme's professional service providers. Fees and expenses charged by underlying funds have been estimated based on their public disclosures.

5- As the fund does not have a full year of performance data, the returns used are based on the period 12 February 2024 to 30 September 2024. For the purposes of the member example the period refers to 12 February 2024 to 30 September 2024 and the return is the actual returns since the fund started, net of annual fund charges and tax.

Medical Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund invests mainly in income assets with a modest allocation to growth assets. The Fund aims to preserve capital while providing a steady return over the short to medium term. It is suitable for investors who want to take a more cautious approach and accept a smaller amount of investment risk to potentially achieve a more stable return.

Total value of the fund	\$1,856,583
The date the fund started	31 January 2024

What are the risks of investing?¹

Risk indicator for the Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The risk indicator is based on the returns data for 5 years to 30 September 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.
