Medical Assurance Society KiwiSaver Plan

Cash Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Cash Fund invests in a range of cash assets. The Fund has a very low level of volatility.

Total value of the fund	\$7,949,203
Number of Members in the fund	326
The date the fund started	22 Dec 2008

What are the risks of investing?

Risk indicator for the Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	2.09%	1.64%
Annual return (after deductions for charges but before tax)	2.91%	2.27%
Market index annual return (reflects no deduction for charges and tax)	2.52%	1.94%

The market index comprises the S&P/NZX Bank Bill 90-Day Index. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns since inception of the Cash Fund

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Cash Fund are charged fund charges. In the year to 31 March 2019 these were:

	% of net asset value
Total fund charges:	0.56%
Which are made up of:	
Total management and administration charges	0.56%
Including:	
Manager's basic fee	0.54%
Other management and administration charges	0.02%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$10,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment.

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$164 (that is 1.64% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$164 for the year.

Medical Assurance Society KiwiSaver Plan

Conservative Fund

Fund update booklet for the year ending 31 March 2019

This fund update was first made publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Conservative Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Conservative Fund (formerly called the Defensive Portfolio) invests mostly in assets with lower risks and returns, with some investment in growth assets that may give higher returns. The Fund has a low level of volatility.

Total value of the fund	\$52,577,341
Number of Members in the fund	2,166
The date the fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Conservative Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	4.44%	3.27%
Annual return (after deductions for charges but before tax)	5.60%	4.16%
Market index annual return (reflects no deduction for charges and tax)	6.01%	6.15%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Conservative Fund (formerly the Defensive Portfolio)

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Conservative Fund are charged fund charges. In the year to 31 March 2019 these were:

	% of net asset value
Total fund charges:	1.20%
Which are made up of:	
Total management and administration charges	1.20%
Including:	
Manager's basic fee	1.02%
Other management and administration charges	0.18%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$327 (that is 3.27% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$327 for the year.

What does the fund invest in?

ACTUAL INVESTMENT MIX

This shows the type of assets that the Fund invests in.

TARGET INVESTMENT MIX

This shows the mix of assets the Fund generally intends to invest in.

Cash and Cash Equivalents	10.00%
New Zealand Fixed Interest	25.00%
International Fixed Interest	45.00%
Australasian Equities	6.00%
International Equities	14.00%

See notes at the end of the fund update for changes to the target investment mix during the year.

TOP 10 INVESTMENTS

NO	NAME	% OF FUND NET ASSETS	TYPE	COUNTRY	CREDIT RATING (IF APPLICABLE)
1	Hunter Global Fixed Interest Fund	40.32%	International Fixed Interest	New Zealand	
2	JBWere Premium Custody Call Account	17.62%	Cash and Cash Equivalents	New Zealand	
3	Vector Bond 14/03/2024	4.26%	New Zealand Fixed Interest	New Zealand	BBB

Hayden Griffiths (JBWere)	Asset Allocation	22 years and 11 months	Analyst - BZW	2 years and 5 months
Earl White (Bancorp Treasury)	Executive Advisor	16 years and 2 months	Treasurer - BNP Paribas	8 years and 7 months

Further information

You can also obtain this information, the PDS for Medical Assurance Society KiwiSaver Plan, and some additional information from the offer register at business.govt.nz/disclose.

Notes

Additional information on fees is available from the offer register under Fund Information at business.govt.nz/disclose.

The Fund name was changed from "Defensive Portfolio" effective 1 December 2018.

Target investment mix changes

Asset class	Target mix – from 1 December 2018	Target mix – to 30 November 2018
Cash	10.00%	10.00%
Fixed Interest	-	75.00%
New Zealand Fixed Interest	25.00%	-
International Fixed Interest	45.00%	-
Income assets	80.00%	85.00%
Australasian Equities	6.00%	5.50%
International Equities	14.00%	9.50%
Growth assets	20.00%	15.00%
TOTAL	100.00%	100.00%

The changes were made to improve returns over the long-term.

Market index changes

Asset class	Benchmark - from 1 December 2018	Benchmark - to 30 November 2018
New Zealand Fixed Interest	S&P/NZX NZ Government Bond Index	S&P/NZX A-Grade Corporate Bond Index
Australian Equities	S&P/NZX 50 Gross Index	S&P/ASX 200 Accumulation Index (NZD)
International Equities	MSCI All Country World Total Return Index (69% hedged to NZD)	MSCI All Country World Total Return Index (50% hedged to NZD)

The changes were made to be more consistent with market convention, and to reflect a change in international equity hedging benchmark to achieve a 50% after-tax hedge position.

Medical Assurance Society KiwiSaver Plan

Moderate Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Moderate Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Moderate Fund (formerly called the Conservative Portfolio) invests mostly in assets with lower risks and returns, with moderate investment in growth assets that may give higher returns. The Fund has a low level of volatility.

Total value of the fund	\$60,419,569
Number of Members in the fund	1,909
The date the fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Moderate Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	5.40%	4.17%
Annual return (after deductions for charges but before tax)	6.51%	5.05%
Market index annual return (reflects no deduction for charges and tax)	6.86%	6.87%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Moderate Fund (formerly the Conservative Portfolio)

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Moderate Fund are charged fund charges. In the year to 31 March 2019 these were:

% of net asset value	
Total fund charges: % of net asset value	1.19%
Which are made up of:	
Total management and administration charges	1.19%
Including:	
Manager's basic fee	1.01%
Other management and administration charges	0.18%
Total performance-based fees	0.00%
Dollar amount per investor	
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

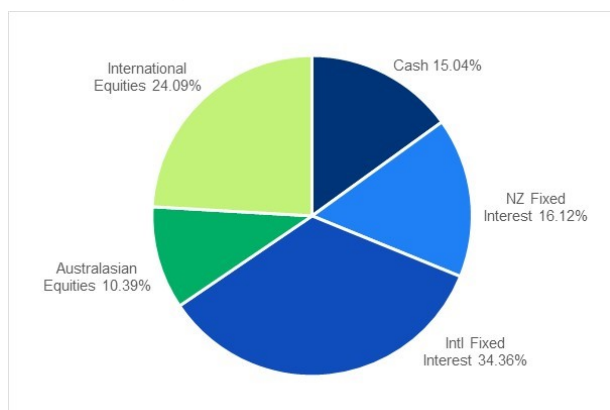

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$417 (that is 4.17% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$417 for the year.

The changes were made to be more consistent with market convention, and to reflect a change in international equity hedging benchmark to achieve a 50% after-tax hedge position.

Medical Assurance Society KiwiSaver Plan

Balanced Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Balanced Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Balanced Fund invests in a mix of around 45% in income assets and around 55% in growth assets that may give higher returns.

Total value of the fund	\$240,245,548
Number of Members in the fund	5,866
The date the fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Balanced Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	6.53%	5.21%
Annual return (after deductions for charges but before tax)	7.54%	6.04%
Market index annual return (reflects no deduction for charges and tax)	7.73%	7.60%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Balanced Fund

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Balanced Fund are charged fund charges. Over the year to 31 March 2019 these were:

	% of net asset value
Total fund charges: % of net asset value	1.19%
Which are made up of:	
Total management and administration charges	1.19%
Including:	
Manager's basic fee	1.02%
Other management and administration charges	0.17%
Total performance-based fees	0.00%
	Dollar amount per investor
Other charges	\$0

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$521 (that is 5.21% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$521 for the year.

What does the fund invest in?

ACTUAL INVESTMENT MIX

This shows the type of assets that the Fund invests in.

TARGET INVESTMENT MIX

This shows the mix of assets the Fund generally intends to invest in.

Cash and Cash Equivalents	4.00%
New Zealand Fixed Interest	16.00%
International Fixed Interest	25.00%
Australasian Equities	17.00%
International Equities	38.00%

See notes at the end of the fund update for changes to the target investment mix during the year.

TOP 10 INVESTMENTS

NO	NAME	% OF FUND NET ASSETS	TYPE	COUNTRY	CREDIT RATING (IF APPLICABLE)
1	Hunter Global Fixed Interest Fund	24.98%	International Fixed Interest	New Zealand

Notes

Additional information on fees is available from the offer register under Fund Information at business.govt.nz/disclose.

Asset allocation changes

Asset class	Target mix – from 1 December 2018	Target mix – to 30 November 2018
Cash	4.00%	4.00%
Fixed Interest	-	46.00%
New Zealand Fixed Interest	16.00%	-
International Fixed Interest	25.00%	-
Income assets	45.00%	50.00%
Australasian Equities	17.00%	17.50%
International Equities	38.00%	32.50%
Growth assets	55.00%	50.00%
TOTAL	100.00%	100.00%

The changes were made to improve returns over the long-term.

Market index changes

Asset class	Benchmark - from 1 December 2018	Benchmark - to 30 November 2018
New Zealand Fixed Interest	S&P/NZX NZ Government Bond Index	S&P/NZX A-Grade Corporate Bond Index
Australian Equities	S&P/NZX 50 Gross Index	S&P/ASX 200 Accumulation Index (NZD)
International Equities	MSCI All Country World Total Return Index (69% hedged to NZD)	MSCI All Country World Total Return Index (50% hedged to NZD)

The changes were made to be more consistent with market convention and to reflect a change in international equity hedging benchmark to achieve a 50% after-tax hedge position.

Medical Assurance Society KiwiSaver Plan

Growth Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Growth Fund invests mostly in growth assets with a higher level of risk and returns, and with some investment in income assets that provide a degree of stability. The Fund has a moderate to high level of volatility.

Total value of the fund	\$226,670,137
Number of Members in the fund	6,568
The date the fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	7.63%	6.46%
Annual return (after deductions for charges but before tax)	8.54%	7.14%
Market index annual return (reflects no deduction for charges and tax)	8.80%	8.29%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Growth Fund

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Growth Fund are charged fund charges. Over the year to 31 March 2019 these were:

	% of net asset value
Total fund charges: % of net asset value	1.20%
Which are made up of:	
Total management and administration charges	1.20%
Including:	
Manager's basic fee	1.02%
Other management and administration charges *	0.18%
Total performance-based fees	0.00%
Dollar amount per investor	
Other charges	\$0

*An estimate has been used to calculate certain underlying fund performance fees which are included in 'Other management and administration charges'. Please see the note at the end of the fund update.

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$646 (that is 6.46% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$646 for the year.

Alternatives	MSCI All Country World Total Return Index (69% hedged to NZD)	MSCI All Country World Total Return Index (50% hedged to NZD)

The changes were made to be more consistent with market convention, and to reflect a change in international equity hedging benchmark to achieve a 50% after-tax hedge position.

Medical Assurance Society KiwiSaver Plan

Aggressive Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Aggressive Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Aggressive Fund invests mostly in growth assets with a higher level of risks and returns, and with a small investment in income assets that provide a degree of stability. The Fund has a potentially high level of volatility.

Total value of the fund	\$86,703,111
Number of Members in the fund	3,500
The date the fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Aggressive Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	8.43%	7.12%
Annual return (after deductions for charges but before tax)	9.27%	7.73%
Market index annual return (reflects no deduction for charges and tax)	9.26%	8.66%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Aggressive Fund

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this doesn't tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Aggressive Fund are charged fund charges. Over the year to 31 March 2019 these were:

% of net asset value	
Total fund charges: % of net asset value	1.20%
Which are made up of:	
Total management and administration charges	1.20%
Including:	
Manager's basic fee	1.02%
Other management and administration charges *	0.18%
Total performance-based fees	0.00%
Dollar amount per investor	
Other charges	\$0

*An estimate has been used to calculate certain underlying fund performance fees which are included in 'Other management and administration charges'. Please see the note at the end of the fund update.

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the PDS for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$712 (that is 7.12% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$712 for the year.

Medical Assurance Society KiwiSaver Plan

Global Equities Fund

Fund update for the year ending
31 March 2019

This fund update was first made
publicly available on 28 June 2019

What is the purpose of this update?

This document tells you how the Medical Assurance Society KiwiSaver Plan Global Equities Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. The trustees of the Medical Assurance Society KiwiSaver Plan prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Global Equities Fund invests entirely in growth assets with the potential for very high growth over the long term. The Fund has a potentially high level of volatility.

Total value of the Fund	\$49,572,872
Number of Members in the Fund	1,788
The date the Fund started	01 Oct 2007

What are the risks of investing?

Risk indicator for the Global Equities Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at mas.co.nz/resources/investment-resources/risk-profiler

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	AVERAGE OVER PAST 5 YEARS	PAST YEAR
Annual return (after deductions for charges and tax)	8.97%	7.83%
Annual return (after deductions for charges but before tax)	9.74%	8.35%
Market index annual return (reflects no deduction for charges and tax)	9.95%	9.01%

The market index comprises the benchmark index returns of each of the asset classes weighted by their benchmark asset allocations. The market index changed since the last fund update to be more consistent with market convention. See Notes at the end of this fund update. Additional information about the market index is available on the offer register at business.govt.nz/disclose.

Returns for 10 years of the Global Equities Fund

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 31 March 2019. **Important:** this doesn't tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

See the Notes at the end of this fund update for changes to the market index during the year.

What fees are investors charged?

Investors in the Global Equities Fund are charged fund charges. Over the year to 31 March 2019 these were:

% of net asset value	
Total fund charges: % of net asset value	1.20%
Which are made up of:	
Total management and administration charges	1.20%
Including:	
Manager's basic fee	1.02%
Other management and administration charges *	0.18%
Total performance-based fees	0.00%
Dollar amount per investor	
Other charges	\$0

*An estimate has been used to calculate certain underlying fund performance fees which are included in 'Other management and administration charges'. Please see the note at the end of the fund update.

Investors may also be charged individual action fees for specific actions or decisions (for example, for switching funds). See the product disclosure statement for more information about those fees. The annual manager's basic fee each member pays is subject to a minimum fee of \$50 per annum. Therefore for members with an account balance of less than \$5,000 the actual manager's basic fee charged as a percentage of the member's account balance may be higher than that stated in the Medical Assurance Society KiwiSaver Plan PDS.

Small differences in fees can have a big impact on your investment over the long term.

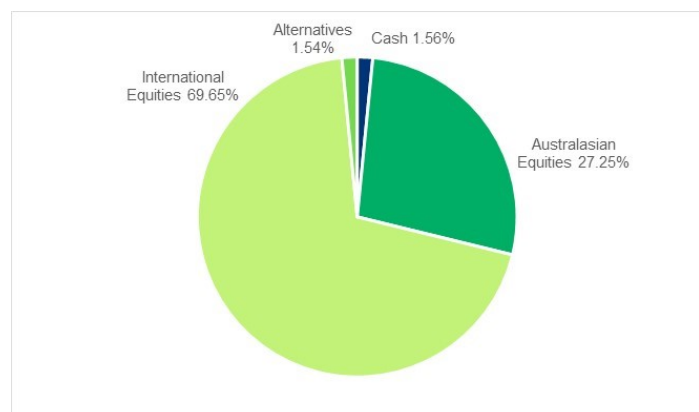

Example of how this applies to an investor

Alex had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Alex received a return, after fund charges were deducted, of \$783 (that is 7.83% of his initial \$10,000). Alex also paid \$0 in other charges. This gives Alex a total return after tax of \$783 for the year.

Further information

You can also obtain this information, the PDS for Medical Assurance Society KiwiSaver Plan, and some additional information from the offer register at business.govt.nz/disclose.

Notes

* An estimate has been used to calculate the underlying fund performance fees which are included in 'Other management and administration charges'. With respect to private equity we have assumed the total expense ratio (including any performance fees) is the same as the previous year.

Additional information on fees is available from the offer register under Fund Information at business.govt.nz/disclose.

** 'Other' is comprised of Alternative Investments. These are private equity investments.

Target investment mix changes

Asset class	Target mix – from 1 December 2018	Target mix – to 30 November 2018
Australasian Equities	30.00%	35.00%
International Equities	70.00%	65.00%
TOTAL	100.00%	100.00%

The changes were made to improve returns over the long-term.

Market index changes

Asset class	Benchmark - from 1 December 2018	Benchmark - to 30 November 2018
Australian Equities	S&P/NZX 50 Gross Index	S&P/ASX 200 Accumulation Index (NZD)
International Equities	MSCI All Country World Total Return Index (69% hedged to NZD)	MSCI All Country World Total Return Index (50% hedged to NZD)
Alternatives	MSCI All Country World Total Return Index (69% hedged to NZD)	MSCI All Country World Total Return Index (50% hedged to NZD)

The changes were made to be more consistent with market convention, and to reflect a change in international equity hedging benchmark to achieve a 50% after-tax hedge position.
